

DESCRIPTION

PRODUCT COVERED:

USR/CNR - Capacitors, Construction Only, Cat. No. CBB60.

ELECTRICAL RATINGS:

Capacitor Model No.	Capacitor Type: Dry - D;	Input		Capacitance, μ F	Temperature Rating
		Voltage, V ac	Frequency, Hz		
CBB60	D	250/400/450	50/60	1~50	- 40°C ~ 70°C

GENERAL CONSTRUCTION:

For general construction employed on these capacitors, refer to Section General at the beginning of the volume.

TECHNICAL CONSIDERATIONS (NOT FOR FIELD REPRESENTATIVE'S USE):

The products covered in this report are "dry type" component capacitors that do not employ internal protection against fault current conditions, and therefore are intended for use in circuits where they will be protected against fault currents.

Use - For use only in complete equipment where the acceptability of the combination is determined by Underwriters Laboratories Inc.

USR indicates investigation to UL 810, standard for Capacitors, Fifth Edition.

CNR indicates investigation to Canadian Standard C22.2 No. 190, Capacitors for Power Factor Correction, First Edition.
